

Advanced Architecting on AWS (AWS-ARCH-ADV)

COURSE OVERVIEW

Building on concepts introduced in the Architecting on Amazon Web Services course, the Architecting on AWS Advanced Concepts course is designed for individuals who are experienced with designing scalable and elastic applications on the AWS platform. In this course, we cover how to build more complex solutions which incorporate data services, infrastructure configuration management, and security on AWS. This course introduces more specialized AWS services, including Amazon Elastic MapReduce, AWS OpsWorks, and AWS Elastic Beanstalk, as well as demonstrates design components for building scalable, elastic, secure, and highly available applications on AWS.

WHO WILL BENEFIT FROM THIS COURSE?

- Individuals who are responsible for designing cloud infrastructure and reference architectures
- Individuals who have attended Architecting on AWS course
- Systems Engineers and Developers who are responsible for designing and implementing advanced architectures on AWS

PREREQUISITES

- Working knowledge of architectural design
- Familiarity with cloud computing concepts
- Experience with core AWS products and services, such as Amazon EC2 , Amazon S3, and Amazon RDS

COURSE OBJECTIVES

After completing this course, you should be able to...

- Build more complex solutions with Amazon Virtual Private Cloud (Amazon VPC)
- Leverage bootstrapping and auto configuration in your designs
- Architect solutions with multiple regions, plus learn when and how to use Availability Zones for high availability and fault tolerance
- Employ Auto Scaling design patterns
- Become familiar with caching techniques using Amazon CloudFront
- Become familiar with big data services including AWS Data Pipeline, Amazon Redshift, and Amazon Elastic MapReduce
- Plan for application management services including AWS Elastic Beanstalk and AWS OpsWorks
- Improve security with AWS Identity and Access Management (IAM)

COURSE OUTLINE

Day 1

- Course Overview
- Architecting with Amazon VPC
- High availability and Amazon VPC
- Designing networks with AWS CloudFormation
- Building architectures with bootstrapping and auto configuration

Day 2

- Planning for Big Data
- Managing your storage lifecycle

Day 3

- Applying concepts: building a multi-region network
- Applying security principles with Amazon IAM
- Leveraging Amazon CloudSearch
- Amazon CloudFront and caching
- Example walkthrough: SharePoint Server Farm

WHY TRAIN WITH SUNSET LEARNING INSTITUTE?

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their technology Investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Premiere World Class Instruction Team

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes live with the instructor, at any of our established training facilities, or from the convenience of your home or office
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- You will work with a dedicated account manager to suggest the optimal learning path for you and/or your team
- An enthusiastic student services team is available to answer any questions and ensure a quality training experience
