

## Red Hat System Administration II (RH 134)

### COURSE OVERVIEW:

Red Hat System Administration II (RH134) is designed as the second part of the Red Hat® Certified System Administrator (RHCSA®) training track for IT professionals who have taken Red Hat System Administration I (RH124). The course goes deeper into core Linux® system administration skills, including storage configuration, security feature management, task control, and installation and deployment of Red Hat® Enterprise Linux.

This course is based on Red Hat Enterprise Linux 8.

### Course content summary

- Install Red Hat Enterprise Linux using scalable methods
- Access security files, file systems, and networks
- Execute shell scripting and automation techniques
- Manage storage devices, logical volumes, and file systems
- Manage security and system access
- Control the boot process and system services

### TARGET AUDIENCE:

This course is geared toward Windows system administrators, network administrators, and other system administrators who are interested in supplementing current skills or backstopping other team members, in addition to Linux system administrators who are responsible for these tasks:

- Configuring, installing, upgrading, and maintaining Linux systems using established standards and procedures
- Providing operational support
- Managing systems for monitoring system performance and availability
- Writing and deploying scripts for task automation and system administration

### PREREQUISITES:

Successful completion of Red Hat System Administration I (RH124) is recommended. Experienced Linux administrators seeking to accelerate their path toward becoming a Red Hat Certified System Administrator should start with the RHCSA Rapid Track course (RH199).

### COURSE OBJECTIVES:

You should be able to demonstrate these skills:

- Install Red Hat Enterprise Linux using Kickstart
- Manage file systems and logical volumes
- Manage scheduled jobs
- Access network file systems
- Manage SELinux
- Control firewalls
- Perform troubleshooting tasks

**COURSE OUTLINE:**

**Improve command line productivity**

- Run commands more efficiently by using advanced features of the bash shell, shell scripts, and various utilities provided by Red Hat Enterprise Linux.

**Schedule future tasks**

- Schedule commands to run in the future, either one time or on a repeating schedule.

**Tune system performance**

- Improve system performance by setting tuning parameters and adjusting scheduling priority of processes.

**Control access to files with ACLs**

- Interpret and set access control lists (ACLs) on files to handle situations requiring complex user and group access permissions.

**Manage SELinux security**

- Protect and manage the security of a server by using SELinux.

**Maintain basic storage**

- Create and manage storage devices, partitions, file systems, and swap spaces from the command line.

**Manage logical volumes**

- Create and manage logical volumes containing file systems and swap spaces from the command line.

**Implement advanced storage features**

- Manage storage using the Stratis local storage management system and use VDO volumes to optimize storage space in use.

**Access network-attached storage**

- Use the NFS protocol to administer network-attached storage.

**Control the boot process**

- Manage the boot process to control services offered and to troubleshoot and repair problems.

**Manage network security**

- Control network connections to services using the system firewall and SELinux rules.

**Install Red Hat Enterprise Linux**

- Install Red Hat Enterprise Linux on servers and virtual machines.

**SUNSET LEARNING INSTITUTE (SLI) DIFFERENTIATORS:**

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their cloud technology investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

**Premiere World Class Instruction Team**

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience.
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

**Enhanced Learning Experience**

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

**Convenient and Reliable Training Experience**

- You have the option to attend classes at any of our established training facilities or from the convenience of your home or office with the use of our HD-ILT network (High Definition Instructor Led Training)
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

**Outstanding Customer Service**

- Dedicated account manager to suggest the optimal learning path for you and your team
- Enthusiastic Student Services team available to answer any questions and ensure a quality training experience
